

Cost of Attendance Formula

The 1800 Hour Advanced Cosmetology Program is the only program currently eligible for Title IV aid. Costs are determined in two sections; direct and indirect.

Direct costs are those related to the actual contracted costs of the program and are signed for by the student at the time of enrollment. Indirect costs are cost assumptions that are made regarding what it may take to live while in the program. They include living expenses, transportation and an allowance for upgrades and replacements in the second academic year of the program. The actual formula for these calculations is available in the Financial Aid office by request.

The direct and indirect costs are combined to give the student the maximum eligibility necessary to complete this course of study and are referred to as the **Cost of Attendance**.

For the 1800 Hour Advanced Cosmetology Program			For Year 1	For Year 2	
Tuition	16,900.00	/2=	8,450.00	8,450.00	These are the direct costs of your program as defined in your contract
